HC/HIT-9

Increase the proportion of online health information seekers who report **easily accessing health information**

HC/HIT-12

Increase the proportion of **crisis and emergency risk messages** intended to protect the public's health that demonstrate the use of best practices

WHAT IS HEALTH COMMUNICATION TODAY?

Health communication is the science and art of using effective communication to advance the health and well-being of people and populations (SHC, 2017)

Health communication is a multidisciplinary field of study and practice that applies evidence, strategy, theory, and creativity to promote behaviors, policies, and practices that advance the health and well-being of people and populations (SHC, 2017)

WHAT WILL HEALTH COMMUNICATION BE TOMORROW?
